

Second Annual Undergraduate Research Symposium

Saturday, March 20, 2010 | University Hall

Shaping Tomorrow's Landscape with Today's Knowledge

The Symposium is a day-long event that provides all undergraduates with the opportunity to professionally present their faculty-mentored achievements in research and creative activity to the wider community. Students can present their work through oral presentations, poster sessions, panel discussions, artistic exhibitions, and live performances. Encourage your students to showcase their academic abilities and continue the success of last spring's 150 participants!

Forms and abstracts must be submitted by February 15, 2010 to symposium@lmu.edu
