COURSE DESCRIPTION/PRINCIPAL TOPICS

This is a German literature course. The goal is to acquaint the student with the German fairy tale as collected by the Brothers Grimm. The required texts for the course will be analyzed in depth. Questions about the origin of the fairy tale, and its typical characteristics will be of interest in this course. The fairy tale has attracted scholars from many disciplines such as structuralism, anthropology, psychology, narratology, and pedagogy. Their contribution to the understanding of the genre will be an important part of our class discussions. We will also deal with the general penetration of the stories into popular culture, e.g., in advertising and film. In addition, our familiarity with the Disney versions of some fairy tales will be exploited to look critically at the changes made in them.

STUDENT LEARNING OUTCOMES

Upon completion of this German literature course, students will have

- achieved a thorough understanding of the Brothers Grimm’s fairy tales
- become familiar with varied approaches to analyze a literary text
- strengthened their command of German

PREREQUISITES/RECOMMENDED BACKGROUND

GRMN 2104 or by LMU Placement Exam.

REQUIRED TEXTS

- *Kinder- und Hausmärchen gesammelt durch die Brüder Grimm*. 3 volumes. Frankfurt: Insel Verlag, 1974 (or later).
- other material provided by instructor

COURSE WORK/EXPECTATIONS

Class participation in this class is very important. We will be constantly discussing the primary and secondary literature in small groups or as a whole class. There will be a midterm and a final, an oral report, and a 5-8 page creative work or research paper in German.

COMMENTS

The material covered in this class forms a smooth transition from language courses to more advanced literature courses. Reading the fairy tales is relatively easy and fun. An advantage in tackling the reading task is that you probably are familiar with most of the tales. You will study methods of interpretation which can be applied to literature read in other literature courses in the future.
